

HEALTH AND SAFETY POLICY

OUR OBJECTIVE

To provide a zero harm workplace

WHY

Our people are essential to us and we will promote safety practices that are aligned with our objective of zero harm. Reaching our goals will make us as a safe, efficient, and successful company

TO ACHIEVE THIS WE WILL

- Communicate our Health and Safety Policy to all employees and relevant stakeholders
- Maintain operations that reflect applicable legal and other subscribed requirements, and standards
- Support, encourage and promote efforts to achieve world-class occupational health and safety performance
- Commit ourselves to achieving the highest level in accident and injury prevention, health preservation, hazard control and promotion of safety
- Create a workplace environment free from work related fatalities, injuries and diseases
- Set up methods and standards by which we constantly gauge our performance and evaluate our procedures through continual improvement
- Provide positive leadership and role models that constantly and consistently reinforce our health and safety message
- Review, train and educate all employees of their obligations towards compliance with safety standards
- Provide education and awareness training to employees on the effects of the inappropriate use of drugs and alcohol, fatigue issues and physical challenges

To achieve our safety objectives, a system has been implemented in accordance with standards AS/NZS 4801 and OHSAS 18001
