

HEALTH AND SAFETY POLICY

OUR OBJECTIVE

To provide a zero harm workplace

WHY

Our people are essential to us and we will promote safety practices that are aligned with our objective of zero harm. Reaching our goals will make us as a safe, efficient, and successful company

TO ACHIEVE THIS WE WILL

- Provide positive leadership and role models that constantly and consistently reinforce our health and safety message
- Maintain operations that comply with applicable legal and other subscribed requirements, and standards
- Commit ourselves to achieving the highest level in accident and injury prevention, health preservation, hazard elimination, risk reduction, and promotion of safety
- Create a workplace environment free from work related fatalities, injuries and diseases
- Set up methods and standards by which we constantly gauge our performance and evaluate our procedures through continual improvement and OHS objectives setting
- Review, train and educate all employees of their obligations towards compliance with safety Standards
- Ensure that consultation and workers participation takes place when and where relevant
- Provide education and awareness training to employees on the effects of the inappropriate use of drugs and alcohol, fatigue issues and physical challenges
- Communicate our Health and Safety Policy to all employees and relevant stakeholders

To achieve our safety objectives, a SAVCOR ART system has been implemented in accordance with standards AS/NZS 4801, OHSAS 18001 and AS/NZS ISO 45001
